# SUBGENIUS RITUAL REACHES MAJORITY X-DAY NOW OLD ENOUGH TO VOTE, BUY LIQUOR, FIREARMS

## "OLD SEQUAW" EMERGES FROM POND, SEES HIS SHADOW, EATS FOUR OHIOANS

SallackNews (SG)

**It's Official - WISTERIA'S** famed Cryptid Guardian of the bottomless Sacrificial Pond is

Old Sequaw

predicting a "blazing hot" Summer for various local festivities in the region. The Giant turtle, of enormous dimensions, rose up on May 3, according to local folklore. Police are investigating the possible disappearance of four tourists said to be in the area.

A group calling itself the Turtle Mound People announced the four had been "sacrificed." (A death cult, the original Turtle Mound People, was suppressed in 1962, after grisly evidence was

(Continued page A-3)

## SWIMMING IN WISTERIA POND IS HEALTHY, BOOSTS IMMUNE SYSTEM, NEW STUDY SHOWS

**Time for a Dip? WHY NOT?** Despite the "intense biological activity" in the Pond, there's no need for alarm, say the Turtle Mound People (see A-2)

### SCIENCE

## SUBGENIUS SCIENTISTS CONTACT XISTS

**Space Creatures Check In - DR. T. L. Renfrew** Witherstein of the Columbus, Ohio Deep Space Monitoring Station (CODSMS), scans UCAC3 196-167073, a variable star, thought to be a Neutron Star, in the great constellation of Ophiuchus, the Serpent-Bearer, for more X-ist transmissions. "We will lift [sweep up, gather?] all you [flesh][culls] [humans] in the discs [saucers] of [our?] joys," ran the first historic (Continued page A-2)

## "SUBS" OF TOMORROW

**Cyber Subs - THE NEW GENERATION** of "tech-savvy" SubGeniuses is on the march, the *Nammo-Hellograph* has learned. Analysis of personal data from online sources found by Cambridge Analytica indicates that "slack," on their side of the Digital Divide, has taken on an unexpected new meaning, largely unknown to First Generation SubGeniuses.

When asked, the Nouveau Subs aver that "slack," to them, means a Cloud-based set of proprietary team collaboration tools and services. Rev. Ivan Stang, 113, was nonplused.

"Doesn't anybody even read our Sacred Writings any more?" he said. "They seem to be missing the entire (Continued page B-2)

## THE ARTS

### "KALLOPE" MUSIC, MORE TO BE HEARD AT X-DAY

SallackNews (SG) - *Vivacious Virtuoso* - COMELY Chordist The Right Reverend Doktor Mother Miller, pictured at right, will play at X-Day on the steam-powered organ, or Calliope, and Harpsichord, until the end.

**What do the X-ists look like?** THE MYSTERY IS NOW SOLVED about the appearance of the Space Goddesses, at least some of them. Deep Space transmission from X-ist sources (CODSMS) provides two clear "faces." L. to R., outdated Artist's Conception of Space Hostess; newly acquired portrait, Hive Mistress [Brood-Queen?] Gnanth'avoith, "Flesh-Renderer" [Ripper?] Supreme [Dominant, Almighty], and R., Compound Monitor Dornhefe[n]th the Ruthless [Severe, Implacable] "Lymph-[tchor?] Drinker." (SG)

## 21-YEAR-OLD GATHERING ATTAINS ADULTHOOD

SallackNews (SG)

**Full Growth - X-DAY, A YEARLY EVENT,** named for the eponymous Day of the End of the World prophesied by the Texas-based Church of the SubGenius, can now walk into a bar and order a beer, so to speak.

For this will be the twenty-first enactment of the End Times Meeting, when the hopeful Church communicants expectantly assemble, July 5th at 700 hours, or Seven O'Clock in the morning CST, when X-ist Aliens are to arrive. X-Day is 21. Now that the Sacred Day has come to maturity, many SubGeniuses vow that the X-ists' landing, long-delayed, can take place at last. They are preparing.

"Yeah, they kept telling us that the X-ists weren't ready," said "Reverend" Jimmy Bob Venali, 38, to this newspaper. "So, I'm all, 'I call B.S!' They weren't ready? B.S! It was us - we weren't ready, dude! Now we're 21, and all grown up and everything. X-ists'll be there."

Another X-Day SubGenius, "Reverend" Bob B. Spud, strongly agreed. "We're gonna see mucho X-ist action for sure this time, bruh," he said. "Everybody thinks at X-Day we all just sit around all day drinking beer with no pants on. Well, we do, but also we do Church business." Spud, 41, insists he will personally encounter the Aliens when they land.

For this will be Church of the SubGenius's final X-day, when the hi-jinks give way to (Continued page A-2)

## STANG TO STEP DOWN

**Breaking NEWS -** Citing a need to spend more time with his family at a remote undisclosed location, Rev. Stang was firm. (Continued page A-7)

## “SCHEDULE”

The greatness that is X-Day lies not in what is planned but what is NOT planned. Anyone can be a participant and performer. It's just that if you're really bad, you might be punished in some way. Every tent is a potential orgy, every square inch of dirt a stage. The experienced preachers may be hogging the stage and “live radio” facilities most of the time, but don't hesitate to ask if you can sit in.

**Registration/Sales: Cafe, Noon (or so) to 5 (or so) every day**

**All Day: 24/7 Grindhouse movies at Location TBA**

**Tuesday: stage prep; live shows at cafe then the big stage**

**Wednesday: too hot/wet (stay at cafe, bring chargers, watch the live radio show and/or jamming/ranting)**

**Thursday, July 5: 7:00 A.M. at Stone Circle: The Rupture; World Ends!**

**...OR... everybody goes back to bed for a while, followed by hours of cursing, moaning and excuses in the cafe or various camps.**

**Friday: Forget what day it is, totally revise schedule; stay up all night, upset everyone**

**Saturday: Recuperate from Friday, Bobtism in Pond 2 pm; Costume Or Not Party and feast 4 pm, more Bulldada Auction, noise on stage(s) Andrew the Impaled, Circus Apocalypse, “Bob” Burning**

**Sunday: Slacking, Ask Dr. Hal, Bulldada Auction, rant/jams.**

## REGISTRATION: CHECK-IN

If you're reading this, which no one actually does, you probably already know that after paying your Wisteria camping fees you must check in with SubGenius Foundation representatives and receive the Electro-Stimulo Negative Reinforcement Bracelet.

## IMPORTANT — Johnny Law

If it's illegal in the Conspiracy's world, it's still illegal here. Underage drinking, false drugs, and especially assassination are not permitted. Wisteria has its own security. If you do need help, you should find a Wisteria staff member or a SubGenius Hierarchite, easily summoned from the office trailers in the center of Wisteria.

The state police may drive through Wisteria, and if you see them patrolling, DO NOT FLIP OUT. They are probably just looking to buy “Bob” t-shirts. If you don't prance around in front of them inanely being illegal, they will show you the same respect.

**FIREWORKS ARE ILLEGAL IN OHIO.**

## RANTERS/BANDS

This schedule is nonexistent. If you want to perform on stage in some manner, tell Rev. Stang when he's not in the middle of recording a show. We'll have some kind of sign-in sheet or ever-changing upcoming events board. However, what many SubGeniuses remember most fondly from X-Day Drills is standing in the road talking.

*\*“BOB” above by Dr. Sinsomniac*

## NAKEDITY

Wisteria is a clothing optional campground, although you can't run around naked up by the highway. Most nice looking young people seem to remain clothed. However, you may see the occasional senior going “skylad.” Try not to laugh. This is their ethnic cultural custom. Unlike in many national parks, however, you *are* allowed to feed the naked seniors.

## VIDEO/AUDIO

If you do NOT want your image to be used in X-Day promotional documentaries, you must inform Rev. Stang or SubGenius Authorities, and also you should lurk unobtrusively in the background. Otherwise it will be assumed that you won't mind being seen online or in an X-Day documentary. Likewise, you do not need our permission to photograph or videotape an event, but you should exercise common courtesy and make sure the person you're photographing doesn't object. We reserve the right to destroy the equipment and confiscate the recordings of dipshit mediographers who irritate the staff, performers or audience. That holds true for any type of dipshit. We'll confiscate your presence.

## TRASH

We want the Earth to be pristine when we destroy it. Also, we love to make the pagans look like litterbugs by comparison. *Please* don't leave cans, bottles, cig butts or 'Frop sticks around. Trash and recycling bins are everywhere, and dumpsters are near the Wisteria entrance. Please carry your trash out. We know that the Earth will soon be one gigantic flaming oilslick, but in the meantime we beg your indulgence. **BUILD AND SWAB YOUR OWN SHIP.**

## BULLDADA AUCTION

Bring your Bulldada to sell off in the name of the Church! And be ready to spend money. One SubGenius's hateful unwanted crap is another SubGenius' beloved belabored postmodernist inadvertent camp masterpiece.

*Dr. Sinsomniac*

## NOISE

Many of us are up practically all night, being noisy. If you can't sleep with loud music or drumming going on nearby, you should take SPECIAL CARE to camp far from others. Wisteria has many private, distant, quiet campsites. If you camp close to other camps, DON'T GIVE THEM GRIEF for partying all night long. That's what X-Day at Wisteria is for. The noise isn't their problem, but yours. Move to another spot further in the woods. It's much cooler there too.

## Helpful Hints:

We can take credit cards for registration and sales, but we prefer cash. There is an ATM at Wisteria. Wisteria has a nice cafe, a small general store, drinking water, cell phone recharging stations, compost

buckets for food scraps, wastewater barrels (for after dishwashing), WiFi, a pay phone for outgoing or collect calls (cell phone reception may be iffy), MANY porta-potties, a new shower house with private stalls, and they sell firewood. (Do NOT bring firewood from outside due to invasive bugs.) Use the many communal fire pits; don't dig your own. Bring a campstove if you want to cook. Pets are NOT allowed. Wisteria may provide a hand-out with additional rules and suggestions. It is a huge area with many gorgeous hiking trails. We suggest Athens for shops, laundry, restaurants, motels, etc.; it's only 18 miles away and very nice. Pomeroy is closer but smaller.
